December 20, 1974

University of Maryland
College Park Campus

Commencement Program

173rd Commencement
University of Maryland
College Park Campus
December 20, 1974

Order of Exercises

December 20, 1974

2:00 p.m.

Cole Student Activities Building

PRESIDING

Dr. John W. Dorsey
Acting Chancellor,
College Park Campus

MASTER OF CEREMONIES

Dr. Thomas J. Aylward
Chairman, Department of
Speech and Dramatic Art

PROCESSIONAL

University Symphony Band
Conductor, John Wakefield

INVOCATION

The Reverend L. James Downs
Roman Catholic Chaplain

THE NATIONAL ANTHEM

Led by
Dr. Paul Traver

GREETINGS

Dr. Wilson H. Elkins
President of the University

Dr. Louis L. Kaplan
Chairman, Board of Regents

MUSICAL SELECTION

*Psalm 148 For Mixed
Chorus and Band*
Latham
University Singers
Conductor, Dr. Traver

ADDRESS

Dr. Stephen K. Bailey

CONFERRING OF DEGREES

Dr. Elkins, Honorary Degree
Dr. Dorsey, College Park Campus

REMARKS TO GRADUATES

Martha Lynn Innocenti
Graduating Senior
Dr. Dorsey

THE ALMA MATER

HAIL! ALMA MATER!
Hail to thee, Maryland!
Steadfast in loyalty
For thee we stand.
Love for the Black and Gold,
Deep in our hearts we hold,
Singing, thy praise forever,
Throughout the land.
Led by
Dr. Traver

BENEDICTION

The Reverend Robert O. Burdette
United Campus Ministry Chaplain

RECESSIONAL

University Symphony Band

The College Park Campus and the University

The Students

College Park is dedicated to young people. The Campus gives all students the chance to encounter new persons, new ideas and new interests, all of which they could hardly find elsewhere in such variety. Students may discover ancient Greece for the first time; they try their hand at art; or they may use a computer to help design a better environment for man.

But whatever they investigate, whether it is under a microscope, or out in space or within the human mind, their experiences sharpen their vision and improve their judgment. They learn in and out of class, by relating to many people of their own age and by dealing with a cultured faculty. They are able, in these many ways, to better define their directions and their goals.

The Faculty

Men and women of varied personalities and interests instruct our students, scholars whose work ranges from the study of physical forces to the study of man in all his complexities. One biologist studies the properties of poisonous fish in the Red Sea while a colleague explores the effects of oil on the marine environment of the Chesapeake Bay; a group of professors probes the possibilities of life on the giant planets while others use high speed photography to find better ways for blasting in the urban renewal of our cities; one professor's long-term project is to edit the Booker T. Washington papers while his colleague studies the environmental causes of alcoholism.

One way to describe this Campus is through the interaction of students to the faculty, but other points of view are interesting too.

The Campus

Located in suburban Maryland just nine miles from the Nation's Capital, the College Park Campus offers a diversity of cultural, political and scientific resources to its students.

The Campus is a spacious one of 1,300 acres. Some of its 228 Georgian-style buildings overlook playing fields, the tree-lined central mall, or rolling lawns, while one or two border the few remaining open fields of grazing land belonging to the University.

In enrollment, College Park is among the 10 largest Campuses in the country. Undergraduates enrolled in fall, 1974 numbered over 27,000 and graduate students over 7,000 for a total enrollment of over 34,000. This year's College Park operating budget is \$119,337,429, and the University assisted over 7,000 College Park students with scholarship aid in 1974-75.

Undergraduates may choose from 71 programs for a major and graduate students from 61 graduate programs. In number of doctorates granted annually, the University ranks among the top thirty in the nation.

History

The University had its beginnings in 1807 with the establishment in Baltimore of the College of Medicine, an entirely faculty-owned institution granting the M.D. degree. When its name was changed to the University of Maryland five years later, it was given power to confer additional degrees. The first dental school in America, the Baltimore College of Dental Surgery, became a part of the University in 1840. Subsequently, the University opened schools of pharmacy, law and nursing.

Under a charter secured by a group of Maryland planters, the College Park Campus of the University, then called the Maryland Agricultural College, opened in 1856 and became one of the original land-grant schools in 1865. After a disastrous fire in 1912, the State acquired control of the College and bore the cost of rebuilding. In 1920 the State took over the faculty-owned University in Baltimore, merging it with the State-owned institution at College Park to form the present day University of Maryland.

In 1886 the Delaware Conference Academy was founded by the Methodist Church in Princess Anne, Maryland. The State acquired this institution in 1926, making it a division of the University of Maryland in 1948. It was made a Campus of the University system in 1970 as the University of Maryland Eastern Shore (UMES). A new Campus known as University of Maryland Baltimore County (UMBC) was opened at Catonsville in 1966.

Libraries

University libraries include approximately 1,400,000 volumes on the College Park Campus, 15,200 subscriptions to periodicals and newspapers, plus nearly 750,000 microform units, as well as many slides, film strips, prints, music scores, and recordings. The new Undergraduate Library has a seating capacity of 4,000 students and is among the nation's largest. The library features a reading collection of 5,000 paperbacks and a book capacity of 200,000 volumes. Facilities include a quadrophonic concert room, color video tape players and playback units, enclosed rooms equipped with instructor's consoles for the use of nonprint media materials, and wireless stereo headsets for tapes of lectures, plays, speeches, and music.

Research Facilities

Among the exceptional research facilities are: a 140 MeV cyclotron; a nuclear reactor; scanning electron microscopes; subsonic, supersonic and hypersonic wind tunnels; an electron ring accelerator; a precision encoder and pattern recognition device; a gravitational radiation detection system including a gravimeter on the moon; a quiescent plasma device (Q machine); a psychopharmacology laboratory; three retro-reflector arrays on the moon; rotating tanks for laboratory studies of meteorological phenomena; Van de Graaff accelerators; a laboratory for basic behavioral research; an assortment of computers; the Astronomy Observatory, Center of Materials Research, Institute for Fluid Dynamics and Applied Mathematics, Institute for Molecular Physics, and the Water Resources Research Center.

The College Park Campus also owns and operates one of the largest and most sophisticated long-wavelength radio telescopes (located in Clark Lake, Calif.) and a cosmic ray laboratory (located in New Mexico).

In addition to these research opportunities in the biological, mathematical and physical sciences, research programs in the behavioral sciences, social sciences and education exist in many bureaus and institutes including: the Bureau of Business and Economic Research, Bureau of Educational Research and Field Services, Bureau of Governmental Research, Institute for Child Study, Institute for Criminal Justice and Criminology and the Institute for Urban Studies.

Academic Costume

The black caps and gowns worn by the students and faculty in the academic procession are of ancient origin. They have been the traditional costume of the scholar since medieval times and probably represent an adaptation of the ecclesiastical dress, since many of the scholars of that period were members of monastic orders.

An intercollegiate commission in 1893 drafted a uniform code for costumes which has since been adopted by the majority of colleges and universities in the United States.

Each of the three academic degrees—bachelor, master, and doctor—has its own distinctive gown and hood. The bachelor's gown is distinguished by its long pointed sleeve. The master's gown has a longer, narrow, closed sleeve, extending below the knee; the arm is passed through a slit at the elbow. In contrast the doctor's gown has a full bell-shaped sleeve with three bars of velvet. The opening of this gown is faced with wide velvet bands. The velvet trim may be black or of a color indicating the general field of learning of the wearer, for example, blue for philosophy, green for medicine, purple for law.

The most colorful and distinctive item of the academic costume is the hood which passes around the neck and extends down the back. The doctor's is the largest of the hoods and the bachelor's the smallest. The bachelor's hood is often omitted. The color of the velvet edging indicates the field of learning. Below is given a list of department or faculty colors.

Agriculture/Maize
Arts, Letters, Humanities/White
Business Administration, Commercial Science/Drab
Dentistry/Lilac
Economics/Copper
Education, Pedagogy/Light Blue
Engineering/Orange
Fine Arts, Architecture/Brown
Forestry/Russet
Home Economics/Maroon
Humanics/Dark Crimson

Laws/Purple
Library Science/Lemon
Medicine/Green
Music/Pink
Nursing/Apricot
Oratory/Silver Gray
Pharmacy/Olive
Philanthropy/Rose
Philosophy/Blue
Public Health/Salmon
Physical Education/Sage Green
Science/Golden Yellow
Social Service/Citron
Surgical Chiropody/Nile Green
Theology and Divinity/Scarlet
Veterinary Sciences/Gray

The colors of the silk lining exposed in the center of the hood are those of the college or university which conferred the degree.

The cap or "mortar board" is uniform in design for all degrees. The tassel may be either black or the color of the field of learning. The tassel of the doctor's cap may be gold.

From Europe the use of academic degrees spread to English universities. Harvard University, William and Mary, and Yale followed the British pattern in the United States.

Academic Degrees

A degree is awarded for the successful completion of a course of study. There are more than 1,600 different academic degrees currently conferred by American colleges and universities.

The first known degree was a doctorate conferred by the University of Bologna in the middle of the 12th Century. Originally, the doctor's and master's degrees were used interchangeably, each indicating that the holder was qualified to give instruction to students. The bachelor's or baccalaureate degree indicated only entrance upon a course of study preparatory to the doctorate or mastership. Gradually, however, the bachelor's degree came to mean successful completion of one level of study preparatory to the higher degrees.

The Doctor's Degree

This is a term meaning teacher, or instructor, applied by ancient Romans to those who delivered public lectures on philosophical subjects. In the Middle Ages, from the 12th century, it came into use as a title of honor borne by men of great learning. It was first made an academic title at the University of Bologna, in Italy, which received from the emperor the right of appointing *doctores legum* (doctor of laws). The University of Paris followed in 1145. Soon after, the popes granted the universities the right of appointing doctors *canonum et decretalium* (teachers of the canon law); and when the study of civil law came to be combined with that of the canon law, the title was changed to doctor *utriusque juris* (teacher of both laws). The faculties of theology and medicine followed that of law in conferring this title.

The doctorate in philosophy and science, and occasionally in theology and law, is given beyond the baccalaureate degree, and requires two to five years, the writing of a thesis, and the passing of written and oral examinations.

The doctor's degree represents the most advanced earned degree conferred by American institutions. There are two distinct types: the professional or practitioner's degree, and the research degree. The first type represents advanced training for the practice of various professions, principally; Doctor of Medicine, Doctor of Dental Surgery, Doctor of Veterinary Medicine, Juris Doctor and Doctor of Pharmacy. These degrees carry no implication of original research and are classified by the U.S. Office of Education, with bachelor's degrees, as the first professional degrees. The University of Maryland awarded the first two dental degrees in history, on March 9, 1841, and invented the name of the degree, D.D.S. as well.

The second type of doctor's degree is classified as research doctorates representing prolonged periods of ad-

vanced study, usually accompanied by a dissertation which is designed to be a substantial contribution to existing knowledge on the subject. The most important of these, the Doctor of Philosophy, no longer has an implication of philosophy for its holder, but represents advanced research in any of the major fields of knowledge. It was first awarded in the United States by Yale University in 1861.

The first Ph.D. was awarded at the University of Maryland in 1920.

The Master's Degree

The master's degree is an academic honor conferred upon students who have successfully completed work in advance of the baccalaureate. A thesis and an oral examination are usually required. The word magister connected with a qualifying phrase, was used among the Romans as a title of honor; but its present meaning must be traced to the time of the establishment of the oldest universities. Regularly organized faculties were not then known as they now exist in the universities. The whole circle of academic activity was limited to seven liberal arts, and those who received public honors on the completion of their course of studies, for their diligence and knowledge, and had already received the degree of baccalaureus (bachelor) were called magistri artium (master of the liberal arts).

In 1920 the new University of Maryland awarded its first M.A. and M.S. degrees in fields other than agriculture.

The Bachelor's Degree

The bachelor's degree represents completion of a four-year course of study of collegiate grade and is the oldest academic degree used by American institutions of higher learning. The degree Bachelor of Arts was first conferred in America in 1642 on the first nine graduates of Harvard College.

Maryland Agricultural College, which was later to become the University of Maryland College Park, awarded the first Bachelor of Arts and Bachelor of Science degrees in 1862.

College Park Campus Administration

Chancellor
John W. Dorsey (Acting)

Vice Chancellor for Academic Affairs
George H. Callcott

Vice Chancellor for Academic Planning and Policy
Thomas B. Day

Vice Chancellor for Administrative Affairs
William L. Kendig (Acting)

University Marshal
Dr. Richard H. Jaquith, Assistant Vice-Chancellor for Academic Affairs

Music
Dr. Eugene Troth, Professor and Chairman, Music

Committee Members

Mr. Ulysses S. Glee
Office of Student Aid

Mr. James R. Collier, Director, University Relations (College Park)

Mr. Robert J. Beiter, Asst. Professor, Agricultural and Resource Economics

Mr. John T. Broadbelt, Supervisor, Physical Plant

Dr. Gordon M. Cairns, Dean, College of Agriculture

Mr. Jackson W. Wilson, Admissions and Registrations

Mr. John A. Goecker, Director, Food Services

Ms. Joanne Janus, UMporium

Dr. Conrad B. Link, Professor, Horticulture

Dr. George Marx, Professor, Counseling and Personnel Service

Mr. William Reith, Physical Plant

Mr. Doyle P. Royal, Coach, Athletic Dept.

Mr. Charles Jantho, Director, Physical Plant

Ms. F. Carol Crain, Nurse Chairman, Health Center

Mr. Alfred J. Hanlon, Assistant Director of Athletics

Mr. Jerrold Witsil, Director, Public Safety

Mr. L. B. Jankowski, University Police

Stephen Kemp Bailey Honorary Doctor of Laws

During a troubled time in our nation's history when U.S. citizens and courts of law are examining the power and influence of politicians and Congress, Stephen Bailey's contributions in the field of public affairs assume a great significance. Stephen Kemp Bailey, Vice President of the American Council on Education, is a distinguished educator and author of books on the ethics of politics and the role of Congress. Not only has he devoted over thirty years of his life to higher education, but he has served as a public servant himself.

A respected scholar in the field of public affairs and public administration, Bailey served for twelve years as a member of the faculty of the Maxwell Graduate School of Citizenship and Public Affairs at Syracuse University. From 1961 to 1969 he served as Dean of the School and spent three years as Chairman of the Policy Institute of the Syracuse University Research Corporation. Before that time, Professor Bailey was on the faculty and director of the graduate program of the Woodrow Wilson School of Public and International Affairs at Princeton University. He was on the faculty and on the Board of Trustees of Hiram College from which he received his B.A. degree and spent eight years at Wesleyan University on the government faculty.

A Rhodes Scholar from 1937 to 1939, he was a Senior Fulbright Lecturer in American government at Oxford University.

Bailey's work in the field of politics and public administration has taken on an added import in light of recent inquiries into abuses of presidential power and the resulting congressional investigations. His books and articles on politics, government and education are numerous: *Congress Makes a Law*, 1950 winner of the Woodrow Wilson Prize of the American Political Science Association; *The New Congress*, 1966; *Congress in the Seventies*, 1970; *ESEA: The Office of Education Administers a Law*, 1968, co-authored by Edith K. Mosher. His articles in the

field of politics include: "The Condition of Our National Political Parties," 1959; "Ethics and the Politician," 1960; and "The Office of Education and The Education Act of 1965," 1966.

He is co-author of *Congress at Work*, 1952; *Government in America*, 1957; *Schoolmen and Politics*, 1962; and *The Problems and Promises of American Democracy*, 1965.

In addition to his work as a writer and educator, Dr. Bailey has been an active participant in public affairs. From 1967 to 1973 he was a member of the Board of Regents of the State of New York. From 1967 to 1970 he was Chairman of the National Advisory Committee on Educational Laboratories under the Department of HEW. In 1964 he was a member of the Presidential Task Force on Government Reorganization, and in 1965 he headed the U.S. Bureau of the Budget Task Force on Intergovernmental Program Coordination. He also served as a Staff Associate to Task Force #1 on the Presidency of the First Hoover Commission. In the field of politics, Bailey headed the Connecticut Democratic State Platform Committee in 1950, and in 1951 he was Administrative Assistant to Senator William Benton of Connecticut. He was elected mayor of Middletown, Connecticut in 1952.

A founding member and Secretary-Treasurer of the National Academy of Education, he is past President of the American Society of Public Administration and a past Vice President of the American Political Science Association.

He has earned a Bachelor of Arts from Hiram College and Oxford University and a Master of Arts and Doctor of Philosophy from Harvard University.

He is awarded the Honorary Doctor of Laws from the University of Maryland.

Candidates for Degrees

Degrees Awarded August 23, 1974 Graduate School

Doctor of Philosophy

- Barbara Arlene Ainsworth
Secondary Education: *Stated Perceptions of Teachers Regarding In-Service Programs*
- John Jefferson Ambrose
Measurement and Statistics: *An Application of the Intuitive-Theoretical and Group-Discriminative Techniques in the Construction of a Multi-Dimensional Scale for Measuring Religious Commitment*
- Alice Lee Aslin
Counseling and Personnel Services: *Feminist and Community Mental Health Center Psychotherapists' Mental Health Expectations for Women*
- Peter Mark Aufsesser
Physical Education: *Effects of Repeated Trials on the Reliability of Physical Fitness and Perceptual-Motor Performance Scores of Institutional Mentally Retarded Subjects*
- Rajender Auluck
Mechanical Engineering: *Mass Transfer to Rising Air Bubbles in Water Column*
- Ray Morris Ayres
Secondary Education: *Evaluation of Training: An Experimental Study Testing the Effects of Human Relations Training on Supervisors' Knowledge*
- Stephen Philip Barrilleaux
Counseling and Personnel Services: *The Effects of Gestalt Awareness Training on Experiencing Level*
- Gail Ann Bleach
Psychology: *An Evaluation of Hotline Services: Process and Outcome*
- Nathan Bluzer
Physics: *An In-Situ Study of the Optical and Electrical Properties of Amorphous Germanium as a Function of Thermal History*
- Ronald Henry Bojarski
Administration, Supervision and Curriculum: *A Study Investigating the Differential Effects of Feedback in Producing Changes in Principals' Behavior as Perceived by Teachers*
- Margaret Huling Bonz
Counseling and Personnel Services: *The Effects of Pictorial Modeling Stimuli on the Achievement Behavior of Women*
- J. Barry Cammarata
Physics: *A Study of Crossing Symmetry in Pion-Nucleus Scattering*
- Enrique Antonio Caponi
Physics: *A Three-Dimensional Model for the Numerical Simulation of Estuaries*
- Hal Victor Cartwright
Government and Politics: *Revolutionary Algeria and the United Nations: A Study in Agenda Politics*
- Michael James Caughlin, Jr.
Agricultural and Resource Economics: *A Microanalytical Simulation of Eight East Indian Villages*
- Ute Reich Cezeaux
German and Slavic Language and Literature: *Die Theaterlustspiele von J. C. Brandes im Übergang von Typenkomödie zu bürgerlichem Rührstück*
- Joseph John Charbonneau
Agricultural and Resource Economics: *A Spatial Analysis of Selected Impacts on the South Atlantic Processing Industry*
- Grace Harlow Chickadonz
Human Development: *Mothering and Illness in Young Apache Children*
- Bette Sandra Coplan
Administration, Supervision and Curriculum: *An Application of the MacKenzie Model to Educational Administration*
- Gregory Marsh Cramer
Chemistry: *Reactions of Methylene-cyclooctatrienyl Anions and the Bicyclo(6.2.0) decatetraene Dianion*
- Ellen Cunningham
Mathematics: *Chain Models for Infinite-Quantifier Languages*
- George Harold D'Addamo
Animal Science: *Plasma Progesterone and Luteinizing Hormone Concentration in Beef Heifers Following Estrous Synchronization with Hormonal Implants*
- William Davis Daniels
Secondary Education: *An Investigation of Student's Attitudes Toward Geography Through the Use of the Strategies of the High School Geography Project at the College Level*
- Julia Perrin Davidson
Counseling and Personnel Services: *Empirical Development of a Measure of Black Student Group Identification*
- Paul H. Del Nero
Human Development: *Parents' Perception of the Self-Concept of their Physically Handicapped Children*
- Wolfgang Peter Johann Dittus
Zoology: *The Ecology and Behavior of the Toque Monkey, Macaca s. sinica (L.)*
- Robert Francis Doherty
Chemistry: *The Principle of Least Motion and E2 Elimination Reaction: The Thermal Reorganization of 9-Chlorobicyclo-(6.1.0) nona-2,4,6-triene*
- James Allen Doilney
Economics: *Equity, Efficiency, and Intertemporal Resource Allocation Decisions*
- Lawrence Earl Dowler
History: *The New Idealism and the Quest for Culture in the Gilded Age*
- Thomas Frederick Endress
Human Development: *The Relationship Between Handedness and Cerebral Dominance in Language Processing*
- Arthur Michael Feldman
Zoology: *The Effects of 3, 3', 5-Triiodo-L-Thyronine on the Renal Handling of Citrate*

- John McMaster Finn
Physics: *Integrals of Canonical Transformations and Normal Forms for Mirror Machine Hamiltonians*
- Steven Jay Fischer
Horticulture: *The Effects of Two Plant Growth Regulators and an Insect Growth Regulator on the Growth, Flowering and Whitefly Infestation of Chrysanthemum and Poinsettia*
- Arnold Frances
Chemical Engineering: *Kinetics of the Radiation Induced Decomposition of Sodium Nitrate*
- Patricia Ann Freiberg
Counseling and Personnel Services: *Modeling and Assertive Training: The Effect of Sex and Status of Model on Female College Students*
- Russell Glock, Jr.
Electrical Engineering: *Parameter Estimation in the Presence of Phase Error*
- Frank Hamilton Godley
Sociology: *Cigarette Smoking, Social Factors, and Mortality: New Estimates from Representative National Samples*
- Edwin John Grayzeck
Astronomy: *Investigation of the Spiral Structure of the Crux-Centaurus-Circinus-Norma Region of the Milky Way by Means of Long-Period Cepheids*
- Margaret Elaine Greenbaum
Economics: *The Poverty Problem: A Merit Want Approach*
- Joanne Marie Greer
Measurement and Statistics: *Prediction of Learning Disability by Computerized Pattern Analysis*
- Bart Karl Gruzalski
Philosophy: *Act Utilitarianism and Utilitarian Generalization: The Equivalence Thesis*
- Shirley Louise Hale
Human Development: *An Investigation of Patient Satisfaction and Psychosocial Aspects of Nursing Care*
- Frances Alda Alexander Harper
Social Foundations: *Tracing the Course of Growth and Development in Educational Policy for the Canal Zone Colored Schools, 1905-1955*
- Henry Jacob Haussling
Meteorology: *A Numerical Study of Viscous Flows of Stably Stratified Fluids over Barriers*
- David Bruce Heard
Human Development: *The Effect of Immediate Focused Videotape Feedback Upon Self-Concept in an Encounter Group*
- Michele Harway Herman
Psychology: *Stereotyping: Some Effects on the Stimulus Person*
- Agnes Catherine Higgs
Psychology: *An Investigation of the Similarities between Altruistic and Moral Judgments*
- Nancy Slocum Hornick
History: *Anthony Benezet: Eighteenth Century Social Critic, Educator, and Abolitionist*
- Tsun-Shih Rosanna Hsieh
Agronomy: *Genetics and Physiology of Air Pollution on Maryland Tobacco, *Nicotiana tobacum*, L.*
- Paul Lawrence Irwin
Mathematics: *Weakly Almost Periodic Vector-Valued Functions*
- Lacy Burnette Jeffreys
Counseling and Personnel Services: *The Relationship between Self-Concept and the Perception of Positive Feedback*
- Patricia Mavis Jenkins
English: *Coleridge's Literary Theory: The Chronology of its Development, 1780-1817*
- Edward Joseph Kelsey
Physics: *Quantum Electrodynamics Corrections to the $2^3S_1 - 1^1S_0$ Transition Rate in Helium and Helium-Like Atoms*
- Margaret Anne Kingdon
Counseling and Personnel Services: *A Cost/Benefit Analysis of IPR*
- Charles Carl Larson, Jr.
Counseling and Personnel Services: *Reinforcement Effectiveness as a Function of Incentive Value and Subject Responsiveness to Informative Cues*
- Tien-Yien Li
Mathematics: *Dynamics for $X_{n+1} = F(X_n)$*
- Robert Charles Lynch
Counseling and Personnel Services: *Effects of Attending Behavior Microtraining on College Faculty Advisors*
- Kenneth Jay Manges
Counseling and Personnel Services: *The Relative Reinforcing Efficacy of Stimuli from Three Different Sense Modalities*
- Betty Jean Martin
Music: *The Ephraim Cloister and Its Music, 1732-1785: The Cultural, Religious and Bibliographical Background*
- Richard Alden Mathers
Sociology: *Class and Politics in the First New Nation*
- Astrid McHugh
Psychology: *Encoding Variables in Recognition Memory: Rule Discovery and Induced Meaningfulness of Nonsense Syllables*
- John Mendelsohn
History: *Trial by Document: The Use of Seized Records in the United States Proceedings at Nuremberg*
- Charles Lee Miller
Chemical Engineering: *Design Optimization with Risk in Dynamic Competitive Markets*
- Dharitri Misra
Physics: *Role of Long and Short Range Potentials in Vibrationally and Electronically Inelastic Collisions of Diatomic Molecules*
- Godfred Ndika Ngoh
Administration, Supervision and Curriculum: *Sports Interests of High School and College Students at Yaounde in Cameroon*
- Virginia Lee Parrish Norton
Nutritional Sciences: *A Nutrition Education Program for Selected Third Grades and Its Effect on Nutrition Knowledge, Attitudes, Practices and Iron Nutriture*
- Dennis James O'Brien
Civil Engineering: *Kinetics of the Oxidation of Reduced Sulfur Species in Aqueous Solution*
- Michael Donald Orzolek
Horticulture: *The Effect of Climatic Factors and Ethephon on Fruit Quality of Processing Tomatoes (*Lycopersicon esculentum* L.)*
- Young Ho Park
Electrical Engineering: *Quantum Linear Recursive Minimum Mean-Square-Error Estimation*
- Wilma Eldersveld Phillips
Human Development: *The Motive to Achieve in Women as Related to Perception of Sex Role in Society*
- Ira Fernando Plybon
English: *John Morley: The Victorian Rationalist as Literary Critic*
- Dwight Alexander Porter
Economics: *The Four-Day Workweek: An Examination of Experience and Prospects*
- David Bruce Rindler
Psychology: *The Effects of Vicarious and Direct Reinforcement on Pre-interview Models*
- Charles Alfred Roswell, Jr.
Geography: *Water Gaps and Drainage Evolution in the Folded Appalachians between the Potomac and Susquehanna Rivers*
- Anthony Louis Rowek
Chemical Engineering: *The Electrical Conductivity Behavior in the System $\text{CaO-La}_2\text{O}_3\text{-HfO}_2$*
- Les J. Schiller
Counseling and Personnel Services: *A Comparative Study of the Differences between Client Continuers and Dropouts at Two Counseling Centers*

Martin Norman Schulman

Administration, Supervision and Curriculum: *Selected Variables Predicting Attendance of High School Students with Previous Records of High Absenteeism*

Michael David Shalter

Zoology: *A Semiotic Analysis of Acoustic Alarm Communication in Selected Galliformes*

Portia Holmes Shields

Elementary Education: *Investigation of the Relationship between the Use of Certain Black English and Standard English Features in a School Setting and the Oral Reading, Silent Reading, and Listening Comprehension Levels of Black Title One Children in Washington, D. C. Public Schools*

Barry B. Shultz

Physical Education: *The Role of Proprioceptive Feedback in Perceptual Anticipation and Coincident Response Timing*

Robert Dewey Simpkin

Zoology: *Acquired Thermotolerance in Suspension Cultures of L-929 Mouse Fibroblasts as Demonstrated by the Incorporation of Labeled Precursors into DNA, Protein and ATP*

Buster Lewis Slaten

Chemical Engineering: *The Effects of Weathering and Atmospheric Pollutants on Cotton Fabric and Cotton Fabric Treated with Selected Flame Retardants*

Raymond William Smock

History: *The Booker T. Washington Papers, September 1899-March 1901*

Theodore Glenn Stastny, Sr.

Mechanical Engineering: *Stresses in a Helical Spring Due to Dynamic Loading*

George Franklin Stermann

Physics: *Aspects of the Fermion-Scalar Bethe-Salpeter Ladder Model; Rotational Analyticity of the S-Matrix*

Michael Loren Swaney

Secondary Education: *A Study on the Relative Merits of a Summary and Two Summarizers--Variants of David P. Ausubel's Organizer--with Respect to Student Achievement in Elementary Calculus*

John William Swann

Zoology: *Cardiac Norepinephrine Depletion During Two Forms of Experimental Hemolytic Anemia*

Scott Logan Thomson

Mechanical Engineering: *A Theoretical Investigation of the Electrode Boundary Conditions in Magnetohydrodynamic Generators*

Larry B. Tsai

Botany: *The Metabolism of Potential Phytosterol Precursors in Chlorella ellipsoidea*

Donald William Turner

Microbiology: *The Development of a Model System for Investigating the Role of the Cell-Mediated Immune Response in the Pathogenesis of Periodontal Disease*

Norman Leland Ulsaker

Agricultural and Resource Economics: *Differential Returns to Alternative Investments in Irrigated and Dryland Agriculture among Small Farms in the Coastal Plain Area of Morocco*

Nancy Ruth Vandenberg

Astronomy: *Meter-wavelength Observations of Pulsars Using Very-Long-Baseline Interferometry*

Mary Ford Waldrop

Human Development: *Minor Physical Anomalies and Inhibited Behavior in Elementary School Girls*

Yuh-ying Lin Wang

Physics: *Drag Force on Objects in the Nearly Free Molecular Flow Regime as a Function of Speed Ratio*

Earl Stephen Warden

Physics: *Experimental Measurements of the Radial Density Distribution in a Nonneutral Plasma*

John Morris Weaver

Animal Science: *The Establishment of Ruminococcus flavefaciens in Gnotobiotic Lambs*

Robert Joseph Werrlein

Zoology: *Density Dependent Oxygen Microenvironment and Respiratory Oscillations in Attached Cultures of Mammalian Cells*

James Shiapin Whang

Civil Engineering: *Real-Time Characterization of Particulates Emitted by A Coal-Fired Power Plant*

Gene Child Whaples

Agricultural and Extension Education: *Attitudes of White 4-H Professionals Toward Blacks*

Doctor of Business Administration

Terence Aubrey Shimp

Business and Management: *An Analysis of the Structural and Content Characteristics of National Television Advertising: Implications for Communication Effects Researchers and Public Policy Officials*

Doctor of Education

Lyle Wilson Cornforth

Human Development: *A Comparison of Autonomic Responses of College Students While Viewing Human Crisis Events in Simulated Video Telecasts with Actual and Staged Audial Introductions*

Elizabeth Hill Moores

Industrial Education: *The Development of a Multi-Variate Formula to Predict Occupational Work-Experience Success of Distributive Education Students*

Haroldie K. Spriggs

Administration, Supervision and Curriculum: *Developing Instructional Modules for Planning and Implementation of Plans in a CBTE Program: A Doctoral Project*

Geraldine Roberts Waters

Administration, Supervision and Curriculum: *A Model for a Competency-Based Social Studies Methods Course for Prospective Elementary School Teachers*

Candidates for Degrees December 20, 1974 Graduate School

The 1974 class roster is comprised of degree candidates from the undergraduate and graduate programs at the University's College Park Campus. As final action cannot always be taken for candidates by the time this program is printed, the list of candidates here is tentative only. The University reserves the right to withdraw or add names. All diplomas will be mailed by the Registrations Office.

Students who have earned their degrees from the College of Education may obtain a Statement of Certificate Eligibility in the College of Education Records Office (Room 3201) until 4:30 p.m. today. Other students who have completed teacher education programs will receive their statements in the mail (separate from the diploma) upon verification of required coursework.

Candidates will be presented by Dr. David S. Sparks, Dean for Graduate Studies

Doctor of Philosophy

Britt L. Albritton
 Government and Politics: *Weapons Development as Catalyst in Elite Transformation: The Case of the Soviet Military*

Erhan Alparslan
 Electrical Engineering: *Structure of a p-adic Computer*

Earle Bartley Amey, III
 Chemical Engineering: *Chlorination-Volatilization for Recovering Nickel, Manganese, and Cobalt from Refractory Nickel Ores*

Stephen J. Andriole
 Government and Politics: *Public Policy Relevance and Contemporary Social Scientific Inquiry: The Case of Foreign Policy Analysis*

Steven W. Anschel
 Zoology: *Functional Specificity of Vocalizations Elicited by Electrical Brain Stimulation in the Turkey (Meleagris gallopavo)*

Stephen Howard Armstrong
 Human Development: *A Three-Dimensional Theory of Group Process in Adolescent Dyads*

Alan Aubrey Atchley
 Botany: *The Genus Arrabidaea (Bignoniaceae)*

Sara Ayers Bagby
 Secondary Education: *The Development and Validation of A Q-Sort Designed to Measure Flexibility in Prospective Home Economics Teachers*

William Robert Bandy
 Physics: *A Tight-Binding Green's Function Formulation for Electron Tunneling*

Norman J. Berg
 Electrical Engineering: *The Effects of Nuclear Radiation on Low Temperature Transport Properties of Epitaxially-Grown Gallium Arsenide*

Ranjan Kumar Bhowmik
 Physics: *A Study of (p,2p) Reaction on Light Nuclei*

Robert Jonas Blatchley
 Human Development: *Personality Factors in Violent Behavior*

Forrest Michael Bonner
 Administration Supervision and Curriculum: *Comparative Organizer Effectiveness in Televised Nine-Grade Social Studies*

Janet S. Brandon
 Human Development: *The Relationship of Runaway Behavior in Adolescence to the Individual's Perceptions of Self, the Environment and Parental Antecedents*

Alice Perrin Brew
 Counseling and Personnel Services: *Effects of a Counseling Workshop on Adult Women and Counselors*

Peter William Bruton
 History: *The National Board of Health*

- Victor David Burns
Psychology: *A Confusability Model for the Detection and Recognition of Visual Stimuli Embedded in Multi-element Displays*
- Dwight George Campbell
Chemical Engineering: *The Effects of Ethylene-Propylene Blocks Copolymers on Melt Blended Linear Polyethylene and Isotactic Polypropylene Polyblends*
- Jane Frances Carey
Human Development: *A Study of Dissonance in the Classroom Setting: Its Relationship to Teacher Job Satisfaction, Student Achievement, and School Satisfaction*
- Barbara Goetschius Cashion
Sociology: *The Relationship Between Self-Esteem and Social Participation*
- Thyagaraja Chandrasekaran
Chemical Engineering: *Transport of Radiation-Induced Charge Carriers in Liquid Alkanes*
- Thomas Howard Chapman
Counseling and Personnel Services: *Simulation Game Effects on Attitudes Regarding Racism and Sexism*

Academic Honors

HONORS DESIGNATIONS

Candidates for bachelors' degree eligible to graduate "With Honors" or "With High Honors" are so indicated in the alphabetical listings by college. These persons are eligible for the appropriate designation if they have completed at least two years of resident work (60 semester hours) at the time of graduation with a scholastic average of B or higher. (Computation does not include grades for courses taken during the last semester of registration before graduation.) The candidates must also rank in the upper fifth of the graduating class in their respective colleges. "With High Honors" is awarded to the upper tenth of those in each college, if they qualify, and "With Honors" is awarded to the second tenth of those in each college, if they qualify.

DEPARTMENTAL HONORS

December 20th, 1974

With High Honors in French Language and Literature

Christine Anne Holmlund

With High Honors in Government and Politics

Sidney Howard Schwarz

With High Honors in Psychology

* Louise Foster Fitzgerald

With Honors in English

Carol M. Marshall

With Honors in English

Rhonda Reis Strickland

With Honors in English

A Walking Tour Through the University of Maryland's College Park Campus

There are many interesting educational and research facilities on the College Park Campus. We have selected some of these that you may wish to visit along a walking tour. These facilities are open on weekdays from 8:30 a.m. to 4:30 p.m. You are welcome to tour them at your leisure. Other points of interest on Campus may be toured by appointment through the phone extension listed after each facility. For general information call the Student Union Information Center (454-2801).

Highlights

- **MEMORIAL CHAPEL**—(BLDG. 78) Regents Drive
Open to visitors weekdays 8:30 a.m. to 4:30 p.m. A schedule of multid denominational services can be obtained in the North Administration Bldg.
- **NORTH ADMINISTRATION BUILDING**—(BLDG. 83) Regents Drive
This facility houses the Admissions Office of the University; Office of the Registrar for grade transcripts and commencement information; and offices for student financial aid, housing, and Campus employment.
- **UNDERGRADUATE LIBRARY**—(BLDG. 120) Corner of Regents and Campus Drives
Completed in 1972, the library is one of the finest in the nation. In addition to serving undergraduate students, it

also houses at the graduate level the College of Library and Information Services. Stop at the information desk if you would like a guide to point out the highlights of the library.

- **STUDENT UNION**—(BLDG. 110) Campus Drive
A new addition to the Student Union was completed in 1972. You can obtain a building directory and schedules of events and activities at the information desk in the front lobby. Guided tours are available to the bowling alleys, billiard room, ballroom, cafeterias, motion picture theatre, and exhibits.
- **COLE FIELDHOUSE**—(BLDG. 27) Campus Drive
With a permanent seating capacity of 12,500, the Main Auditorium of Cole Fieldhouse is used for basketball games, classes in physical education, commencements, concerts, academic testing, track, and many other indoor activities. Other areas of the building contain small gymnasiums, a swimming pool, classrooms, faculty offices, a ticket booth for athletic events, and the Department of Intercollegiate Athletics.

- **TAWES FINE ARTS CENTER**—(BLDG. 115) Campus Drive
You are welcome to visit the Art Gallery on the first floor. Offices of the departments of art, music, speech and dramatic art, and hearing and speech sciences are housed in this building. University Theatre is also located here, adjacent to Parking Lot #1.
- **SCHOOL OF ARCHITECTURE BUILDING**—(BLDG. 8) Campus Drive
You are invited to walk through this facility and view displays of student architectural designs and the faculty-designed sculpture pyramid in the West Court.

Tours by Appointment

CYCLOTRON, Department of Physics and Astronomy. The Cyclotron is available for touring on Mondays from 10-4 p.m. by prior arrangement. (Ext. 4152)

CENTER OF ADULT EDUCATION. The Center of Adult Education is a residential conference facility for continuing education for adults. Tours can be arranged by appointment.

LEONARDTOWN RESIDENCE COMPLEX. These new modular housing units are a unique innovation in student housing. (Ext. 4148)

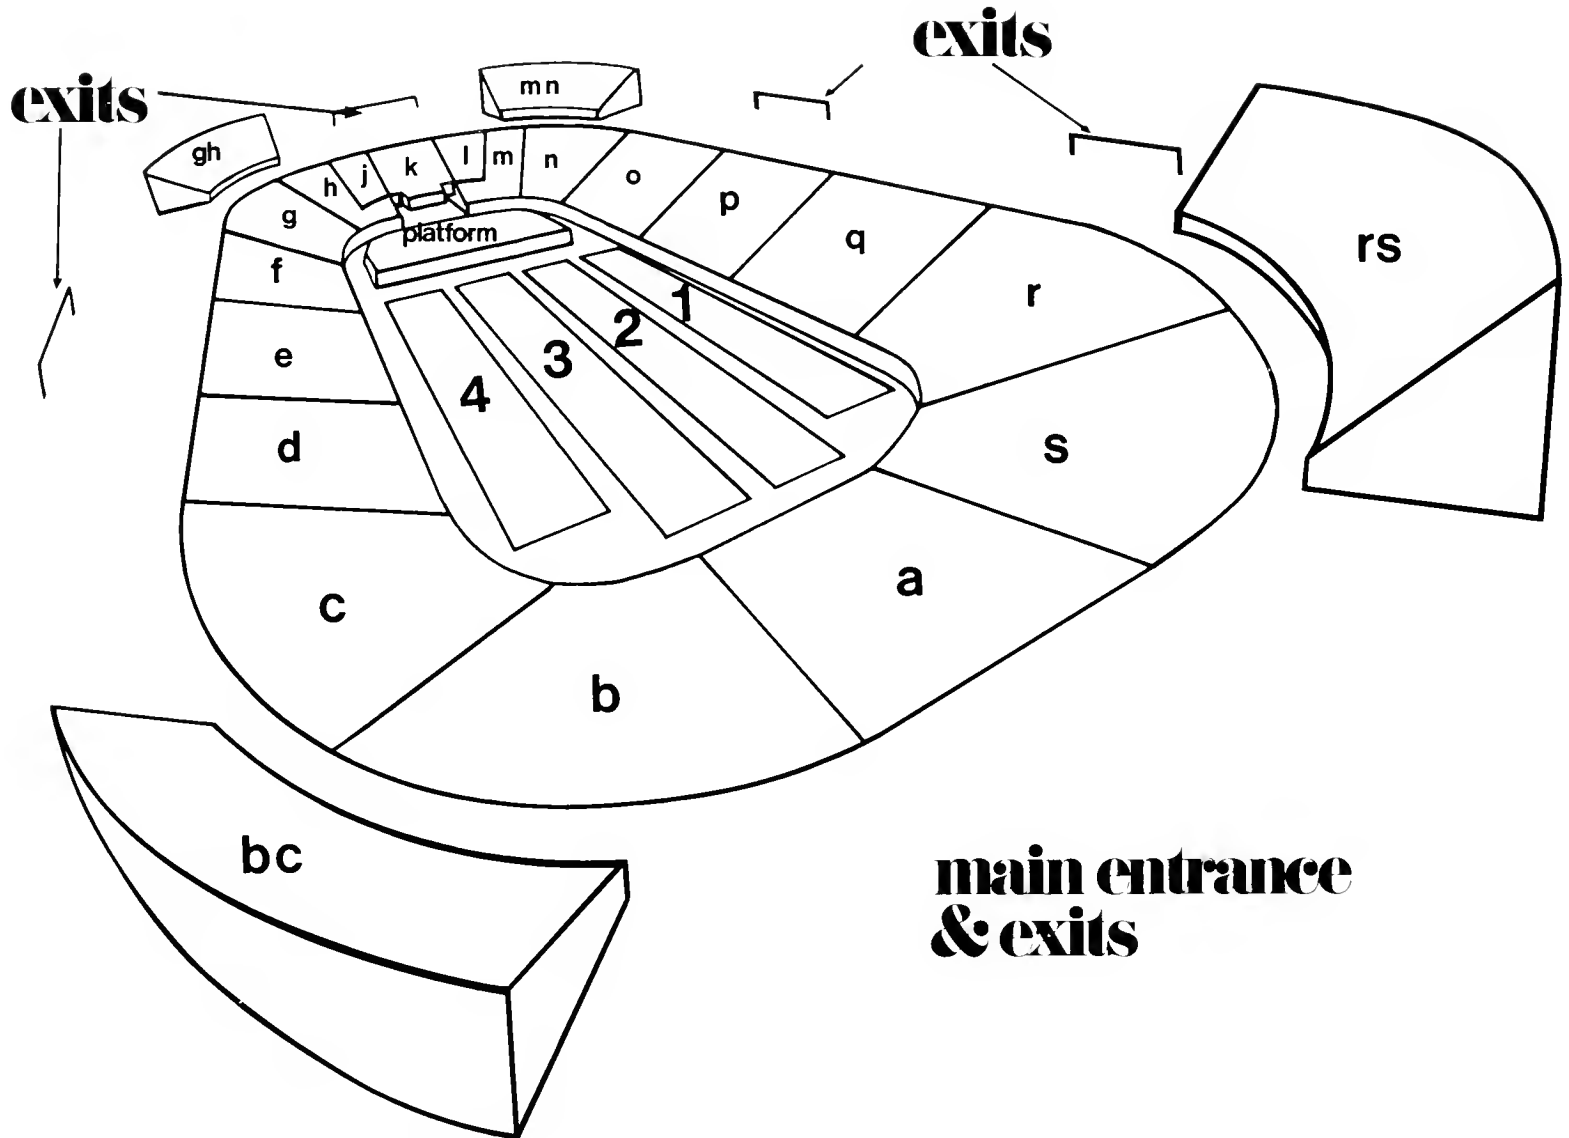

BYRD STADIUM. Football games and track and field events are held in this stadium which holds 35,000 spectators. (Ext. 4705)

McKELDIN LIBRARY. McKeldin contains materials for the use of graduate students and faculty. Tours can be arranged by appointment. (Ext. 4042)

ASTRONOMY OBSERVATORY. Open House is held on the 5th and 20th of each month at 8:30 p.m. for the general public. Large groups may call for reservations at 454-3001. (For other information call Ext. 3460).

ROSSBOROUGH INN. The oldest building on the College Park Campus, Rossborough Inn is open to the public for lunch from 11:30 to 1:30 p.m. (Ext. 3940)
